

## Start the school year with a clean car.

The C'hill Robotics Club will be holding a carwash on **Saturday, August 25, 2007, from 10 a.m. to 3 p.m.** It will be in the parking lot east of the Seven-Eleven at West 18<sup>th</sup> and Chambers Street.

Donations gladly accepted.

The club is raising money so they can compete in various robotics events during the year. They need money for parts, software, entry fees and travel.

Students interested in engineering and technology are invited to stop by the carwash to talk to club members about upcoming events. The club will meet in room F45 after school once or twice a week once school starts. The club Advisor is teacher, Greig Thompson.
